EXPERIENCE

Software & App Developer | Jan 2022 – July 2022 | *DIBC, Borivali*

- Streamlined database development with Django, ensuring data flow and reliability.
- Crafted interactive web apps featuring dynamic forms and mobile client-side solutions for Android.
- Collaborated effectively within a team, optimizing operations and seamlessly integrating external APIs using Git.

Data Science Intern | Sept 2022 | *The Sparks Foundation*

- Assisted in data collection, cleaning, and preprocessing to support analytical projects.
- Collaborated to develop and test predictive models, gaining exposure to machine learning algorithms.
- Contributed to data visualization efforts, helping to present insights and findings effectively to stakeholders.

POSITION OF RESPONSIBILITIES

President | Sept 2023 - Present | *PCCOE's GeeksforGeeks Student Chapter*

- Orchestrated collaborative events fostering a diverse learning environment for students.
- Established strategic partnerships, extending the chapter's influence and effectiveness.
- Led the implementation of skill development programs, elevating technical proficiency among students.

Marketing Team | 2019 | *COESA*

- Collaborated with cross-functional teams to develop and execute marketing campaigns.
- Conducted market research and analysis to identify trends and customer insights.

ACHIEVEMENTS

Hacktoberfest | *Hall Of Fame*

- Contribution to successful Open Source Projects Participating in Hacktoberfest

BlueBIT Hackathon | *FINALIST*

- Demonstrated exceptional problem-solving and innovation as a top contender in the competition

PROBLEM SOLVING

- 250+ DSA Problem Solved on platforms like GFG, LeetCode, HackerRank etc.

TECHNICAL

Programming Languages : Python, C++,Java, Android, JavaScript

Frameworks : Django, Flask, NodeJs, Express

Web Technologies : HTML, CSS, Bootstrap, React, Tailwind

Tools & Software: PyCharm, GIT, Eclipse, Visual Studio, Microsoft Visual Studio Code, JIRA, Android Studio

Databases : PostgreSQL, MySQL, MongoDB, Firebase

PROJECTS

SAHARA: An Automated Smart Assistant for Visually Impaired (ONGOING PATENT) | *R&D*

- It provides advanced obstacle detection for safety.
- Features message-to-speech functionality for access to information.
- Offers accurate currency identification for financial independence.
- The project aims to enhance safety, accessibility, and financial autonomy for the visually impaired

Social Fly: Fly with your social ties | *Android, Java*

- Developed a real-time chatting application for friends on the Android platform.
- Utilized Firebase as the backend for features such as OTP verification and real-time chat functionality.
- Ensured user security through a friend request system for sending and accepting connection requests.
- Enabled users to share a variety of media, including images, videos, and documents.
- Implemented a versatile communication platform offering text messaging, audio calls, and video calls.

EDUCATION

Bachelor of Technology in Computer Science & Engineering (Artificial Intelligence & Machine Learning) | 2025

Pimpri Chinchwad College of Engineering, Pune

Diploma in Computer Engineering | 2022

Government Polytechnic Mumbai, Bandra
